

As you read, watch for the archetypes to answer your question. Keep notes tracking and citing.

Group One	Focus on the archetypal elements of setting (time, place, mood) and explain how they provide emotional effects on the reader.
Group Two	Trace any use of archetypal character used to foreshadow. How do these characters add to the overall effect of the novel?
Group Three	Track how the author uses archetypal landscape feature. Track imagery and metaphors and explain how these make the story richer.
Group Four	Identify major and minor conflicts throughout the novel. Discuss how those conflicts reflect archetypal elements
Group Five	Identify the major themes o the novel. Discuss hoe the author develops these themes using archetypal structures.
Group Six	List major and minor symbols that emerge throughout the novel. How are these symbols revealed archetypically?
Group Seven	Trace archetypal supernatural and/or psychic sequences in the novel. What appears to be the author's purpose in using these sequences?

As you complete the novel, write a one page MLA formatted response to answer your question. Use evidence, support and page citations to support your answer.

You will meet with other members of your group on stage one day prior to testing for a 8 minute panel discussion.
